

MMS ADMIN DASHBOARD & OPERATIONS MANAGEMENT SYSTEM

Operational Control Center Specification

Version 1.0

PURPOSE

The MMS Admin Dashboard serves as the command center of the institution.

Every operational activity must be manageable from this dashboard.

The dashboard replaces many traditional office functions and enables MMS to operate efficiently as a digital-first institution.

PRIMARY OBJECTIVES

Manage Students

Manage Applications

Manage Payments

Manage Courses

Manage Learning Content

Manage Certificates

Manage Communications

Manage Instructors

Manage Reports

Manage Business Operations

USER ACCESS LEVELS

Super Administrator

Administrator

Instructor

Support Staff

Marketing Staff

Future Branch Manager

DASHBOARD HOME

The home dashboard provides a real-time overview of the institution.

FINAL OBJECTIVE

The MMS Admin Dashboard must allow the institution to operate efficiently, professionally, and at scale without depending on a traditional office environment.

Every operational process should be manageable digitally, securely, and efficiently from a single centralized platform.

The dashboard must become the operational brain of Mpumalanga Mining Solutions.
