

MMS DESIGN SYSTEM & UI/UX SPECIFICATION

Enterprise Design Language & User Experience Standards

Version 1.0

PURPOSE

This document defines the complete visual identity, design language, user experience standards, interaction patterns, accessibility requirements, and interface architecture for the MMS Digital Ecosystem.

Every page, component, form, dashboard, email, and mobile screen must follow this document.

This document serves as the single source of truth for all UI/UX decisions.

DESIGN PHILOSOPHY

The MMS platform must communicate:

Trust

Professionalism

Authority

Safety

Innovation

Reliability

Industry Leadership

Students should feel:

Confident

Supported

Inspired

Secure

Motivated

DESIGN PERSONALITY

Premium

Industrial

Corporate

Modern

Clean

Minimal

Powerful

High Trust

High Conversion

Technology Driven

VISUAL INSPIRATION

USER EXPERIENCE RULES

Every screen must answer:

What is this?

Why does it matter?

What should I do next?

SUCCESS CRITERIA

The platform should feel like:

A National Institution

A Premium Training Provider

A Modern Technology Company

A Trusted Educational Platform

FINAL OBJECTIVE

Create a visual experience that immediately communicates professionalism, trust, and competence.

Every interaction should reinforce the perception that Mpumalanga Mining Solutions is a modern, well-organized, industry-leading training institution capable of delivering exceptional educational experiences both online and offline.
