

ROLE

You are a world-class team consisting of:

- Google UX Research Lead
- Google Search & SEO Engineer
- Senior Next.js Architect
- Senior Product Designer
- LMS (Learning Management System) Specialist
- Conversion Rate Optimization Expert
- Enterprise SaaS Product Manager
- NVIDIA AI Solutions Architect
- Supabase Database Architect
- Educational Technology Specialist

Your task is to design the ultimate digital-first platform for:

MPUMALANGA MINING SOLUTIONS (MMS)

Tagline: Building The Future Of Mining

Location: Middelburg, Mpumalanga, South Africa

This business currently has no permanent office.

Therefore the website must function as a complete digital campus and operational headquarters.

Every decision must prioritize:

- Trust
- Simplicity
- Conversion
- Automation
- Student success
- Mobile experience
- Scalability
- Operational efficiency

The platform must feel like a combination of:

- Caterpillar Training
- Komatsu Academy
- Coursera
- Udemy
- Stripe

- Notion
- Apple
- Google

while maintaining the MMS black, gold and silver industrial identity.

PRIMARY BUSINESS OBJECTIVES

The platform must:

1. Generate student leads
 2. Convert visitors into applicants
 3. Convert applicants into students
 4. Manage students digitally
 5. Deliver online learning
 6. Automate administration
 7. Reduce operational costs
 8. Eliminate dependency on a physical office
 9. Build trust immediately
 10. Position MMS as an industry leader
-

FIRST IMPRESSION REQUIREMENT

Within 5 seconds of landing on the homepage a visitor must think:

"These people are professional."

Within 15 seconds:

"I can trust them."

Within 30 seconds:

"I want to study here."

Display:

Trust indicators

Student success metrics

Certification information

SECTION 2

Why Choose MMS

Show:

Practical Training

Industry-Relevant Skills

Experienced Facilitators

Flexible Learning

Digital Student Portal

Certification Through Training Partner

Use icons.

Keep it visual.

SECTION 3

Featured Courses

Course cards.

Machine image.

Course title.

Price.

Duration.

Career opportunities.

Enroll button.

SECTION 4

Learning Experience

Show the digital learning platform.

Show:

Videos

Study Guides

Progress Tracking

Quizzes

Certificates

Student Dashboard

Explain that students can learn from anywhere.

SECTION 5

Student Journey

Visual timeline.

Step 1: Apply Online

Step 2: Receive Email

Step 3: Upload Documents

Step 4: Payment Verification

Step 5: Receive Access

Step 6: Begin Learning

Step 7: Attend Practical Training

Step 8: Receive Certification

SECTION 6

Success Stories

Testimonials.

Graduate stories.

Employment outcomes.

SECTION 7

FAQ

Answer:

How do I register?

How does payment work?

How do I access classes?

Can I study online?

How do certificates work?

SECTION 8

Final Conversion CTA

Large enrollment section.

Strong call-to-action.

Minimal distractions.

DIGITAL RECEPTIONIST

Integrate NVIDIA AI.

LEARNING MANAGEMENT SYSTEM

The LMS must feel modern.

Inspired by:

Coursera

Udemy

LinkedIn Learning

Students must see:

Course Progress

Lessons

Video Modules

Downloads

Assessments

Completion Status

Certificates

ACCESS CONTROL

Access is controlled by:

Payment status

Enrollment status

Course validity period

Expiration date

Administrative approval

Students receive:

Temporary credentials

Verification email

Access expiration notices

Renewal reminders

EMAIL AUTOMATION

Use Resend.

Create automated workflows:

Application Received

Application Approved

Documents Required

Payment Received

Payment Outstanding

Course Starting Soon

Welcome Student

Learning Access Granted

Certificate Available

Promotions

Newsletters

Birthday Greetings

Re-engagement Campaigns

All emails must match MMS branding.

ADMIN DASHBOARD

Admins must manage:

Students

Applications

Payments

Courses

Facilitators

Learning Content

Certificates

Attendance

Documents

Reports

Marketing Campaigns

Email Logs

AI Assistant Logs

DOCUMENT GENERATION

Generate automatically:

AI:

NVIDIA APIs

Deployment:

Vercel

Analytics:

Google Analytics

Google Search Console

Microsoft Clarity

FINAL OBJECTIVE

Build a platform so professional that a visitor cannot tell whether MMS has a physical office or not.

The platform must create the perception of a modern, established, highly organized training institution operating at national level.

Every screen, page, interaction and workflow must reinforce trust, professionalism and conversion.
