

MMS STUDENT PORTAL & LEARNING MANAGEMENT SYSTEM

Functional Requirements Document

Version 1.0

PURPOSE

The MMS Student Portal is the digital campus of Mpumalanga Mining Solutions.

It serves as the central hub where students access:

Learning Materials

Course Information

Training Progress

Documents

Notifications

Certificates

Support Services

Administrative Services

The portal must replace many traditional office functions and provide a professional learning experience.

CORE OBJECTIVES

Provide learning access.

Improve student engagement.

Reduce administration.

Improve communication.

Track student progress.

Increase course completion rates.

Create a modern educational experience.

USER TYPES

Student

Can:

Access Courses

View Learning Materials

FINAL OBJECTIVE

The MMS Student Portal must provide a professional digital learning experience comparable to leading global learning platforms while remaining simple, practical, and accessible to machinery training students throughout South Africa.

The platform must support student success, reduce administrative workload, and strengthen the reputation of Mpumalanga Mining Solutions as a modern training institution.
