SEO URL PRINCIPLES

Human Readable; Keyword Rich; Short; Descriptive; Consistent.

USER FLOW

Visitor → Course Discovery → Lead Capture → Application → Approval → Enrollment → Learning → Certification → Alumni → Referral.

FINAL OBJECTIVE

The MMS page architecture must create a seamless journey from visitor to graduate. Every page must have a clear purpose. Every navigation path must support enrollment, learning, support, administration, or business growth. The entire platform must feel intuitive, professional, scalable, and capable of supporting the future expansion of Mpumalanga Mining Solutions into a national training institution.
